

# How many more Puget Sound shoreline modifications, including aquaculture, can wildlife withstand before their habitat is no longer sustainable?

Orcas cruising around Oakland Bay, the heart of expanding industrial aquaculture, Sept 2009

PVC pipe leaching and elimination of natural food sources, resulting from geoduck feedlots.

Industry dumps lye on piles of starfish in the intertidalands.

*Ling Chi – Chinese torture – Death by a thousand cuts.*

Orcas in Case Inlet, July 2006
